

*Intro for Molly Ketcham (pronounced “ketch-um”)*

In a world where artificial intelligence is the hottest topic, human interaction is the hottest skill. From sales to leadership, team meetings to executive presentations, your ability to influence others has a huge impact on your success. Our speaker today is the person that corporations, associations, and non-profit organizations hunt down to help their teams question their way to influence. She’s been called “Approachable”, “A Fireball”, and “The one you can’t say no to.” She has worked with organizations like Caesars Entertainment, Sherwin-Williams, and now, most importantly, us!

Please help me welcome - Molly Ketcham.
